**TERMS OF REFERENCE**

**FOR THE**

**GIS - BASED INTEGRATED DEVELOPMENT PLANNING  
SYSTEM**

## **Background**

“Failing to plan is Planning to fail”

Planning is the single most important task of management and leadership of an organisation. Strategic Planning determines where an organisation is moving to over the next five (5) years. It is a systematic process through which an organisation agrees on and builds commitment to priorities that are essential to its mission and responsive to the operating environment.

The Integrated Development Planning (IDP) process is a process through which municipalities prepare strategic development plans for a five-year period. An IDP is a principal document for Local Government, used to guide the developmental agenda and municipal budgets, land use development, management and promotion of local economic development and institutional transformation in a consultative and systematic manner.

Strategic alignment of all key processes with the strategic plan is a requirement for successful implementation of the municipal strategy. In the context of local government, the strategic plan is the Integrated Development Plan (IDP) of the municipality. The budget is the provision of resources for the implementation of the strategy (IDP), whilst the Service Delivery and Budget Implementation Plan (SDBIP) is the annual implementation plan for the strategy. Quarterly Performance review processes provides for the monitoring of the implementation of the SDBIP. Performance agreements signed by the Municipal Manager and the Section 56 Managers, as well as the annual performance appraisal process is used for rewarding performance on implementation of the strategy.

The alignment of IDP processes between different spheres of government are critical to make sure that service delivery is attained and thus planning becomes critical for the District and its local municipalities. The District framework ensures that planning and IDP processes are not in contrast but rather complementary and aligned with key documents for development in local government. The District Framework gives direction in which the municipalities' IDPs should follow and drive integrated development planning within the District area of jurisdiction.

The plan must identify the plans and planning requirements binding in terms of national and provincial legislation on the district.

### **Phases of the IDP, Budget and Performance Management Process**

All Municipalities within Ehlazeni District agreed to adhere to the following time frames of different phases for the IDP process in the district

*Figure 1: Phases of IDP, Budget & Performance Management Process Plan*
